TABLE OF CONTENTS

Modeling and simulating axial vibrations on the crankshaft of the large two-stroke marine diesel engine	3
<i>Ngo D.Vuong, Lai H.Thien, Luu M.Hai, Hoang Q.Dong, Vu V.Tuyen, Do D.Luu</i>	
Multi-layer material combination for manufacturing stab-proof life jackets	9
<i>Duong Tu Tien</i>	
Exploring the impact of industry 4.0 on marine mechanical engineering in the Philippines: Opportunities and challenges in the 21st century	16
<i>Robert Michael B. Corpus, Meldanette S. Bayani</i>	
Design optimization of a marine refrigeration system with waste heat recovery channel	21
<i>Marcelo, April L., Palisoc, Arriane A., and Marcelo, Luvismina D.</i>	
Innovative approaches for sustainable marine ecosystem conservation and pollution mitigation in the Philippines: A comprehensive analysis of technological and policy innovations	25
<i>Meldanette S. Bayani, Robert Michael B. Corpus</i>	
Effect of the addition of fish protein isolate on biscuits' physicochemical and sensory properties	31
<i>Huynh Nguyen Duy Bao, Nguyen Ngoc Thuy Dung</i>	
The effect of liquid smoked flavourings and wood smoke on the quality of smoked mackerel fillets during chilled storage	38
<i>Huong Thi Thu Dang, Magnea G. Karlsdottir, Sigurjon Arason</i>	
The importance of technology and cold chain logistics in Vietnam's preservation of harvested seafood	49
<i>Minh Huong Tang, Thu Hoa Ho Thi</i>	
Studying influence of the mathematical model error on the results of calculating freedom torsional vibration for marine diesel propulsion system	58
<i>Bui Minh Tuan, Do Duc Luu, Lai Huy Thien, Luu Minh Hai</i>	
Advancing turning performance of C45 steel for marine applications: A comprehensive study on optimizing cutting conditions	63
<i>Huu That Nguyen, Ngoc Chien Vu</i>	
Analysis sedan vehicle structure in frontal impact using computer model	70
<i>Nguyen Phu Thuong Luu, Ly Hung Anh, Pham An Binh</i>	
A numerical study on thickness of rear under-ride protection in case pick-up to semi-trailer full rear impact	75
<i>Nguyen Phu Thuong Luu, Pham Cao Anh, Kim Yonghun</i>	
Dynamic balancing of rigid rotors by the influence coefficient method	80
<i>Tuan Le Dinh, Thanh Bui Trung, Ngoc Anh Vu</i>	

Effect of probe length on tensile strength of dissimilar friction stir welded lap-joint between AA6061 and 316 stainless steel using marine structure	89
<i>Huy Huu Ho, Quan Minh Nguyen, Thuyen Van Phi, Hao Dinh Duong, and Tra Hung Tran</i>	
The intake port of DI-Engine type VIKYNO RV165 designed using 3D-CAE software	95
<i>Giang Luong Huynh, Chau Vo Tan</i>	
Apply and improve the association rules in predicting national high school admission scores to Nha Trang University	103
<i>Pham Thi Thu Thuy, Bui Xuan Huy, Truong Minh Hieu, Kim Hwa Soo</i>	
Design and simulation of structural durability of passenger car front in collision	110
<i>Phuong Vu Hoang, Tung Pham Son, Duong Hoang Ngoc, Nguyen Nguyen Khoi</i>	
Researching the force absorption system for the front of the passenger car to secure the driver	116
<i>Phuong Vu Hoang, Tung Pham Son, Duong Hoang Ngoc, Nguyen Nguyen Khoi</i>	
Mechanical and thermal transport in nanoporous graphene-like BC6N	121
<i>Thi Bao Tien Tran, Huu Nghia Nguyen, Van Thai Nguyen</i>	
Optimizing SKD-61 steel machining for marine component manufacture: A grey-Taguchi study on nanofluid minimum quantity lubrication	129
<i>Ngoc-Chien Vu, Xuan-Phuong Dang, and Shyh-Chour Huang</i>	
Effects of impact location on the dynamic response of repeatedly impacted aluminum alloy plates	134
<i>Dac Dung Truong, Tan Khoa Dang, Tan Loi Vo and Viet Loi Dau</i>	
Mechanical properties of fabric-reinforced geocomposites in accordance with novel size-independent flexure-test technique	142
<i>Doan Hung Tran*, O. Bortnovsky, D. Kroisova and Quang Nguyen Pham</i>	
Effect of welding speed on mechanical properties of dissimilar friction stir lap-joint welding between AA6061 and C1100 copper	151
<i>Vu Nguyen Le Anh, Quan Nguyen Minh, Thuyen Van Phi, Hao Dinh Duong, Tra Hung Tran</i>	
A short review of marine renewable energy: generation, storage, and applications	159
<i>V. L. Trinh, C. K. Chung, X. C. Nguyen, T. S. Nguyen</i>
